

KIYE ENERGIE SAS

Sustainable Energy Development in Africa

CORPORATE PROFILE 2026

Our Vision, Mission & Core Values

The Vision

To be the leading artisan of sustainable energy sovereignty in Africa.

The Mission

To develop, finance, and execute high-impact energy infrastructure projects that empower local economies, ensure energy security, and drive the green transition through strategic global partnerships and local expertise.

Core Values

We lead with **integrity**, drive progress through **innovation**, and pursue **excellence** in every detail to deliver energy solutions that create a lasting, **positive impact** across Africa.

At a Glance : Kiye Energie SAS

Expertise

Over 25 years of combined international experience in energy markets, finance, and large-scale infrastructure.

Risk Management

Mastery of the OHADA legal framework and local regulatory landscapes to ensure project bankability and safety.

Sustainability

Driven by ESG principles to create lasting positive impact for communities and the environment.

Experience

Project Development

From initial site identification and technical feasibility to final operational handover, we provide the strategic foresight and rigorous execution needed to turn renewable energy concepts into bankable, high-impact realities.

Technical Advisory

We leverage deep engineering expertise and market insights to provide rigorous technical due diligence and strategic consulting that de-risks investments and optimizes the lifecycle performance of energy assets.

Project Management

We provide end-to-end oversight and technical leadership throughout the construction phase, ensuring that every project is delivered to the highest international standards of safety, efficiency, and budget compliance.

Our Leadership Team

CHIEF EXECUTIVE OFFICER

Assanatou Cissé

10 years of hands-on experience managing entire energy project lifecycle.

Helped secure a \$15 million loan agreement from the West African Development Bank (BOAD) for a major grid improvement project and personally directed EPC of solar minigrids. Master of Electrical Engineering & Master of Engineering Management from Duke University.

CHIEF DEVELOPMENT OFFICER

Jeremy Lin

+25 years of experience navigating the complexities of electricity markets, grid planning, and renewable energy integration in the United States.

Key roles at PJM Interconnection, DNV-GL, and GE Energy Consulting, working on de-risking major energy projects.

Ph.D. in Electric Power & Energy and an MBA in Finance.

CHIEF FINANCIAL OFFICER

Djeneba Cissé

Specialized in strategic financial analysis, advanced data modeling, and performance evaluation. Her experience managing approximately \$10 billion in annual capital expenditures at AT&T's FirstNet program has equipped her with the expertise to oversee the financial rigor required for large-scale energy project development and financing.

Our Leadership Team

CHIEF OPERATING OFFICER **Sidi Mohamed Guindo**

A seasoned operations and engineering professional with over 10 years of hands-on experience in electrical infrastructure and renewable energy systems. As our COO, Sidi drives the technical execution and operational excellence of Kiye Energie's portfolio, transforming complex engineering designs into robust, high-performing physical assets. +100 successful C&I solar installations in Mali.

ESG AND HSE MANAGER **Cheick Abdel Kader N'Diaye**

A specialist in environmental and social governance with over 7 years of hands-on experience managing complex energy infrastructure projects across Mali. Former HSE Manager for grid reinforcement projects at Albatros Energy Mali, holding a NEBOSH IGC certification and deep expertise in site-level risk analysis

COMMERCIAL AND BRAND MANAGER **Fatoumata Cissé**

A dynamic commercial strategist specializing in brand integrity, market positioning, and stakeholder engagement within the West African corporate landscape. Fatoumata drives the commercial excellence of Kiye Energie, ensuring our identity, messaging, and value proposition resonate powerfully with institutional clients, global partners, and investors.

Our Team's Proven Track Record

+25 Years

COMBINED EXPERTISE

8.5 BN FCFA

BOAD FUNDS MOBILIZED

+100

SOLAR INSTALLATIONS (C&I)

Utility Scale Pipeline

+ 250 MW energy project pipeline in Mali, demonstrating our ability to manage large-scale regulatory and technical challenges.

Regional Influence

Active presence in international energy roundtables, shaping the future of West African electrical interconnections and power pool dynamics.
